Allowable Subject Matter

Claims 1-15 are allowed.

The following is an examiner's statement of reasons for allowance: As stated by the Applicant on page 5 of the remarks section, none of the prior art disclose in combination with the other limitations a digital image processing method for locating human eyes in a digital image, comprising detecting human iris color pixels in the skin colored region irrespective of the brightness of the skin colored region. Thus claim 1 is allowable. Claims 2-14 are dependent on claim 1 and thus are allowable for the same reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
